

## WILL NOT ADOPT THREE-CENT RATE

Rio Grande Makes Slight Reduction in Fare Between Salt Lake and Ogden.

## OTHER TARIFFS UNCHANGED

ARE ALREADY LOWER IN SOME INSTANCES.

The Rio Grande will not adopt the 3-cent rate to be installed by the Oregon Short Line July 1, but to meet this cut in passenger rates it is arranging a few changes in its rates in this territory. A one way fare of \$1.10 will be installed between Salt Lake and Ogden, July 1. The present one way fare is \$1.00. The present round trip fare, limited to ten days, is \$2.25. This round trip rate will be abolished. The one way fare will apply to travel in both directions between these cities. The new rate will mean a saving of but 5 cents. Other rates are being figured out. No cuts in present fares will be made where a steep grade exists on the division. A mileage book covering 1,000 miles is sold for \$30 by the Rio Grande, making the rate 3 cents per mile.

### Steep Grades Costly.

The Rio Grande is maintaining a rate not much above the 3 cents per mile rate at the present time. Heavy grades exist between a large number of local points and stations throughout the state, making the cost of operating trains an item of unusual expense. This prevents a general reduction. Figures furnished by the officials of the passenger department show that the Rio Grande's rates are not greatly above the 3 cents per mile rate. The fare to Bingham is \$1 from Salt Lake, and the distance is twenty-six miles. The round trip fare is \$1.15 and the distance covered is fifty-two miles. With a 3-cent rate the round trip fare would be \$1.56, but it is stated that such a fare cannot be established as the Bingham branch has a 4 per cent grade. The cost of building and repairing roads and operating them, and the wear and tear upon equipment are almost doubled when in mountainous country. If the Rio Grande was to adopt the 3-cent rate upon all branches and divisions it would prove costly to several districts. The Rio Grande's round trip fare to Mantle from Salt Lake is \$3.50. The distance is 250 miles. With the installation of the 3-cent rate the fare from Salt Lake to Mantle and return would be \$7.50-\$2.15 higher than the present fare. With the adoption of the 3-cent rate one fare and a half rate now in use for round trips would be abolished and 3 cents figured for every mile covered.

### Fare to Eureka.

But 10 cents would be saved on the round trip from Salt Lake to Eureka on the present rate. A 4 per cent grade makes this branch costly. The Pastly City branch has a 4 per cent grade also. The round trip fare from Provo from Salt Lake is \$2.50. The distance covered in the round trip is ninety miles. The adoption of the 3-cent rate would make the fare \$2.70, a reduction of 15 cents.

A few more changes besides the Ogden-Salt Lake reduction will be announced shortly.

### ORDERS BRIDGE REMOVED.

Court Renders Decision in Long Beach Controversy.

Los Angeles, June 25.—In the United States circuit court today Judge Wellborne handed down his decision in the case of the Los Angeles Dock & Terminal company and Carver against the San Pedro, Los Angeles & Salt Lake railroad, where a suit brought to require the removal of the railroad bridge over the Cerros slough at the entrance to the harbor being dredged out at Long Beach. Judge Wellborne holds that the Cerros slough is a navigable highway and that the bridge unlawfully obstructs navigation. The court orders the bridge removed. The decision affects similar rights at San Pedro harbor and is of much interest in a commercial way to southern California.

### COMMENCE SERVICE JULY 14.

Burlington Will Run Trains Into Worland for Shoshone Opening.

Chicago, June 25.—Construction of the new line of the Burlington road from Topeka, Mont., to Worland, Wyo., on the upper Big Horn railroad, is so near completion that plans for train service will become effective July 14. The principal registration point for the Shoshone Indian reservation opening, and because of this the road has been pushed to an early completion.

### Pullman Changes Announced.

W. H. Broughton of Salt Lake has been appointed city ticket agent for the Pullman company at Ogden. He has been platform man here for the same company. His successor is H. Klenke, a conductor. Mr. Broughton succeeds W. H. Hunt, who resigned the ticket agency in Ogden because of bad health. The appointments are effective June 27.

### James Dun Resigns.

Topeka, Kan., June 25.—Official announcement will shortly be made of the retirement from active work of James Dun as chief engineer of the Santa Fe system, and the elevation of W. B. Storey, jr., now chief engineer of the system proper, to the position now held by Dun.

### KNOWS NOW.

Doctor Was Fooled by His Own Case for a Time.

It's easy to understand how ordinary people get fooled by coffee when doctors themselves sometimes forget the facts. A physician speaks of his own experience.

"I had used coffee for years and really did not exactly believe it was injuring me although I had palpitation of the heart every day.

"Finally one day a severe and almost fatal attack of heart trouble frightened me and I gave up both tea and coffee, using Postum instead and since that time I have had absolutely no heart palpitation except on one or two occasions when I tried a small quantity of coffee which caused severe irritation and proved to me I must let it alone.

"When we began using Postum it seemed weak—that was because we did not make it according to directions—but now we put a little bit of butter in the pot when boiling and allow the Postum to boil full 15 minutes which gives it the proper rich flavor and the deep brown color.

"I have advised a great many of my friends and patients to leave off coffee and drink Postum, in fact I daily give this advice." Name given by Postum Co., Battle Creek, Mich.

Many thousands of physicians use Postum in place of tea and coffee in their own homes and prescribe it to patients. "There's a reason."

A remarkable little book "The Road to Wellville" can be found in pkgs.

## TO HEAR PETITION FRIDAY

Judge Morse Will Pass Upon Application of Rio Grande to Stop Spur Building.

The application of the Rio Grande Western Railroad company to restrain the Oregon Short Line from building a spur track on a disputed right of way on Fifth West between Fifth and Sixth North streets will be heard before Judge Morse Friday morning at 10 o'clock, and it is not improbable that contempt proceedings will grow out of the matter before the foreman in charge of the Short Line's men refused to accept service of the temporary restraining order issued early Sunday morning.

Judge Morse was aroused from his slumbers about 5:30 o'clock Sunday morning by Attorney Waldemar Van Cott of the Rio Grande Western legal department. The suit was hardly up when the court affixed his signature to the temporary restraining order.

**NOT PROPERLY BOUND OVER.**

Nick Carnage, a Greek, is Released

and Then Remanded.

Nick Carnage, a Greek, applied to Judge Armstrong yesterday for a writ of habeas corpus. Carnage was accused, in company with another Greek, of assaulting a third Greek, a dealer in weapons, at Garfield a few weeks ago. He was bound over, but the record showed that the committing magistrate had merely used the testimony taken in the case of the assault on a basis upon which to bind him over.

Judge Armstrong held that this was an improper use of binding the defendant over. He discharged him so far as the district court was concerned, and remanded him to the custody of the sheriff until he can be given a proper preliminary examination.

**SAY WATER IS DIVERTED.**

Man and Woman Bring Suit for Damages Against Mining Companies.

George E. Chandler and Martha J. Watson, who own farms near Bingham, yesterday brought suit against the Utah Copper company and the West Mountain Pacer Mining company to restrain the latter from using the waters of what is known as the Watson tunnel near Bingham. Plaintiffs claim that they are entitled to the water. In the case the injunction is not granted, they ask for \$5,000 damages.

The same plaintiffs also filed a suit against the Utah Copper company for \$5,000 damages to their farm lands caused by the alleged pollution of Bingham creek.

**Court Notes.**

The Utah Association of Credit Men yesterday caused the issuance of a writ of attachment on property owned by J. P. Demaris and Peter Perantos to satisfy assigned claims amounting to \$207.42.

Elmer Roscoe Eldredge yesterday sued the Oregon Short Line for \$20,000 damages for alleged personal injuries. He alleges that while he was working in an inclosure belonging to the company Aug. 15, 1901, an insecure plank slipped out from under him and that in the fall he sustained permanent internal injuries which make it impossible for him to earn a living.

Charles W. Robb yesterday sued Mary A. Robb for divorce. They were married at Park City, July 25, 1891, and he charges that she deserted him in 1901. He also asks for the custody of their two children.

John Gray, a laborer of Bingham, Utah, filed a petition of voluntary bankruptcy yesterday in the United States court. His liabilities amounted to \$1,262.06 and the schedule showed his assets as \$140, of which amount \$125 is claimed to be exempt. The liabilities consist of open accounts for merchandise, house rent, furniture and grocery bills.

**Cured Hemorrhages of the Lungs.**

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bell. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough, and heals the lungs, and prevents serious results from a cold. Refuse substitutes. F. J. Hill Drug Co., the Never Substitutors.

**Real Estate Day, Saltair, June 28.**

Over 250 prizes; cash, merchandise, lots, etc.

Tickets for sale by all members of the association and at headquarters, 15 West Second South.

**Sixty Years' Experience of an Old Nurse.**

Mrs. Winslow's Soothing Syrup is the prescription of one of the best female physicians and nurses in the United States, and has been used for sixty years with never-failing success by millions of mothers for their children. During the process of teething its value is incalculable. It relieves the child from pain, cures diarrhoea, colic, whooping cough, and wind colic. By giving the child to the child it rests the mother. Price 75 cents a bottle.

**The Monarch Visible Typewriter**

is the up-to-date typewriter. Pembroke Stationery Co. sell it.

See the champion high diver at Saltair this afternoon and evening.

by Mr. Dun. Mr. Dun will be made consulting engineer. Mr. Dun is getting well along in years and his retirement is of his own volition. Perhaps his greatest piece of work was the conception of the engineering details of the famous Telen cut-off of the Santa Fe in New Mexico. It will cost, when completed, \$10,000,000.

**Want Utah Livestock.**

Western livestock is in great demand both in eastern and western markets. Buyers from eastern and western firms are arriving in Salt Lake weekly to close deals with local raisers. The Oregon Short Line is handling in the neighborhood of 200 cars daily. Consignments occupying 150 cars were put into motion yesterday from Salt Lake.

**Railroad Notes.**

Rumor has it that the Oregon Short Line is contemplating a line from Montpelier, Vt., to the Shoshone reservation. This line is said to be considered because of the activity exhibited by the Burlington and Chicago & Northwestern in Wyoming.

The Western Pacific will put its track-laying machine to work in earnest next week, and when the gap between the present end of the track, three miles out of Salt Lake, and Garfield is closed the rails will stretch out toward Nevada at a record-breaking rate.

**METEOROLOGICAL REPORT.**

Yesterday's Record at the Local Office of the Weather Bureau.

Maximum temperature, 82 degrees; minimum temperature, 52 degrees; mean temperature, 68 degrees, which is 3 degrees below the normal. Accumulated deficiency of temperature since the first of the month, 75 degrees. Accumulated deficiency of temperature since Jan. 1, 125 degrees. Total precipitation from 8 a. m. to 6 p. m., none. Accumulated deficiency of precipitation since the first of the month, 36 inches. Accumulated excess of precipitation since Jan. 1, 2.21 inches.

## Half-Sick

When your nerves are weak, when you are easily tired, when you feel all run down, then is the time you need a good strong tonic—Ayer's Sarsaparilla. Your doctor will tell you why it has such power over weak nerves, why it makes the blood rich, and why it gives courage and strength. Ask him if it is the medicine you need.

We have no secrets! We publish the formula of all our medicines!

J. C. Ayer & Co., Lowell, Mass.

## COMMISSION MEETS TODAY

Will Discuss Consolidation of Two Big State Schools.

Owing to a misunderstanding the commission appointed by the governor to inquire into the advisability of consolidating the University and the Agricultural college did not meet yesterday. Instead it will meet in Governor Cutler's office at 2 o'clock this afternoon. The commission may not complete its labors today, but it will probably adjourn from day to day until it does complete them, and, as stated in The Herald Sunday morning, it will recommend consolidation of the two institutions.

A man who is in perfect health, so he can do an honest day's work when necessary, has much for which he should be thankful. Mr. L. C. Rodgers of Branchton, Pa., writes that he was not only unable to work, but he couldn't stoop over to tie his own shoes. Six bottles of Foley's Kidney Cure made a new man of him. He says, "Success to Foley's Kidney Cure." F. J. Hill Drug Co., the Never Substitutors.

The human fish at Saltair.

# Diamonds, Watches Jewelry, Silverware

AT  
**ONE-FOURTH LESS THAN ACTUAL VALUE**

Before taking my annual inventory I have decided to make a SPECIAL CUT IN PRICES for a few days, to reduce my stock. There are very often sales advertised with reductions in prices of one-half and more. That is easy when the prices in the first place are high enough. I have been in business here close to fifteen years and the people of Salt Lake know that I have always carried a first-class, reliable line of goods at prices as low as first-class goods could be sold for; and in all those years I have never made any special sales. Now, after looking over my stock carefully in the last few days, I find I have more stock than I would like to carry over the dull season, and that is my reason for the cut in prices. If you have any cash to spare you will be wise to invest it in a diamond when you can buy it at my prices. If you need a good timekeeper IT WILL PAY YOU TO SEE MY PRICES, and if you need anything in jewelry, in solid gold or gold filled, I can save you money for the next few days. A word to the wise is sufficient.
